

Guide to In-Person Worship (Rev. 2; 3/13/2022)

1. Mask Policy

- Starting from 3/13/2022, masks are now optional.

2. Social Distancing

- Follow social distancing guidance where practical.

3. Sanitation

- Hand sanitizer will be available throughout the building. Wipes will be provided for people who wish to clean surfaces.

4. Contact Tracing

- Register your attendance for contact tracing purpose. Please use your phone to scan the QR code when you arrive. It will take you to a brief online form. We ask that you complete this registration form each time you attend in-person, as this helps with contact-tracing.

5. You are welcome to join us in-person if none of the following apply to you:

- You are experiencing any of these symptoms within the past 48 hours (fever or chills; cough; shortness of breath or difficulty breathing; new loss of taste or smell; feeling; fatigue; muscle or body ache; headache; sore throat; congestion or runny nose; nausea or vomiting; diarrhea)
- You have been in close contact with someone who has COVID-19 within the past week.

6. If you have been in “close contact” with someone who has COVID or tested positive for COVID, and you remain symptom free, please still stay at home for 5 days from the last exposure. We ask that you get tested and follow Washington County Public Health’s guidance or the recommendations of your primary care provider, before returning.

- “Close contact” is if you have been within 3-6 feet of someone who has COVID, or tested positive for COVID, for more than 15 minutes total in a 24-hour period.

- 7. If you have COVID (within one week of attending CEC in-person worship), either with or without symptoms,** we ask that you remain home and not return until cleared by your primary care provider or meet the requirements established by Washington County Public Health.
- You are asked to contact the Church, so the Church will notify all those who were at the same event and were in close contact.
 - Anyone exposed will be advised to monitor their health and we recommend they contact their physician for further instructions and recommendations.
