

Covid Guidelines for CEC Children Ministry (Revised on 10/16/21)

Children/Parents

1. If your child is experiencing any of these symptoms within the past 48 hours (fever or chills; cough; shortness of breath or difficulty breathing; new loss of taste or smell; feeling fatigue; muscle or body ache; headache; sore throat; congestion or runny nose; nausea or vomiting; diarrhea) please have them stay home. You should have your child tested for COVID and follow the recommendations of your pediatrician or Washington County Public Health guidance:
 - a. <https://www.co.washington.or.us/HHS/CommunicableDiseases/COVID-19/home-guidance.cfm>
2. Please check your child's temperature before coming to church.
3. All children of ages 5 and older are required to wear a mask at all times.
4. All children of ages 2-4 are highly encouraged to wear a mask, but it is NOT a requirement.
5. If your child has been considered to have been in “close contact” to someone with COVID, and remains symptom free, we ask that he/she quarantine for at least 10 days. The child must also have a negative test result before returning.
 - Close contact” is if they have been within 6 feet of someone who has COVID, or tested positive for COVID, for more than 15 minutes total in a 24 hour period. (Example: Being within 6 feet of someone for 10 minutes in the morning, 5 minutes in the afternoon and 5 minutes at night would be 20 minutes of close contact)

6. If your child is Covid positive and either with or without symptoms, we ask that he/she remain home and not return until cleared by their pediatrician.

7. When we become aware of a child who may have had COVID while participating in any of our programming we will notify parents of children who may have been exposed so that they can follow up with their medical provider on the best course of action.

8. Please contact the Children Ministry Director (Jenny Kim) or Children Ministry Deacon (Daisy Fan) when you find out that your child has been exposed to or has contracted Covid-19. This will help us to figure out the best course of action for our ministry, children, and their families.

Volunteers

1. If you are experiencing any of these symptoms within the past 48 hours (fever or chills; cough; shortness of breath or difficulty breathing; new loss of taste or smell; feeling fatigue; muscle or body ache; headache; sore throat; congestion or runny nose; nausea or vomiting; diarrhea) please stay home. You should get tested for COVID and follow the recommendations of your primary care provider or Washington County Public Health based on the test results.
 - a. <https://www.co.washington.or.us/HHS/CommunicableDiseases/COVID-19/home-guidance.cfm>
2. Please make sure you have your mask and wear it at all times in the building.
3. If you have been in “close contact” with someone who has COVID or tested positive for COVID, and you remain symptom free, we ask that you get tested and follow Washington County Public Health’s guidance or the recommendations of your primary care provider, before returning.
 - Close contact” is if they have been within 6 feet of someone who has COVID, or tested positive for COVID, for more than 15 minutes total in a 24 hour period. (Example: Being within 6 feet of someone for 10 minutes in the morning, 5 minutes in the afternoon and 5 minutes at night would be 20 minutes of close contact)
4. If you have COVID-19, either with or without symptoms, we ask that you remain home and not return until cleared by your primary care provider or meet the requirements established by Washington County Public Health.
 - a. <https://www.co.washington.or.us/HHS/CommunicableDiseases/COVID-19/home-guidance.cfm>
5. Please contact the Children Ministry Director (Jenny Kim) or Children Ministry Deacon

(Daisy Fan) when you find out that you have been exposed to or have contracted Covid-19. This will help us to figure out the best course of action for our ministry, kids, and their families.
